Subject: FW: Document Request Pursuant to Sunshine Ordinance

Okay everyone. It has been over two months now and we still have yet to have one internal meeting on about the biosolids compost test results. The amount of time that has lapsed has now resulted in a Sunshine Request. As the actual test results are still draft and have not been vetted, they do not need to be disclosed yet. However, it still means that all documents/emails relating to the test set up will need to be turned over for review. Please batch PDF any responsive documents and send to Idil Bereket.

By no later than next week, I would like an internal meeting here at 1155 Market to discuss the lab results. Since the meeting is contingent on whatever results we are ready to talk about, perhaps Rod or Andy can set up the meeting.

Thanks,

Ty

I have no documents responsive to this request.

Thanks, Idil

Subject: Document Request Pursuant to Sunshine Ordinance

Dear Public Records,

On March 24, 2010, in regard to a "Letter to Alice Waters from the OCA," Ed Harrington wrote in an email to Francesca Vietor: "We have started doing all of the testing-of our product and other composting materials. I am told these test take 2-3 weeks even though our chemists are giving it the highest priority."

Please provide all documents relating to, referring to, and/or constituting the testing procedures, programs and results referred to by Mr. Harrington in the above exchange. As previously established, "documents" should be construed liberally so as to capture and include all responsive documents and communications of any kind, including, but not limited to, emails, letters, attachments, reports, agendas, meeting notes, handwritten notes, telephone messages, memoranda, etc., so as to make your response to this request as inclusive as possible.

Best regards,

John Mayer
